Professional Summary

Computer Science & Engineering undergraduate (CGPA 7.8) with hands-on experience building full-stack, real-time applications using Python, React, SQL, and Docker. Experienced in WebSocket communication, containerized deployment, and multi-agent AI systems. Seeking an entry-level Software Development Engineer (SDE) role.

Education

B.E. in Computer Science & Engineering — CGPA: 7.8 — 2023 – 2027
C. Byre Gowda Institute of Technology (CBIT), Kolar

PUC (Science) — 70% — 2023
SSR PU Science College, Mudalagi

SSLC (10th) — 95.66% — 2021
GHS Gurlapur

Technical Skills

Languages: Python, C (Basics)
Web Development: HTML5, CSS3, React
Database: SQL
Tools: Git, GitHub

Technical Projects

VIKRANTA — Real-Time Tourist Safety Platform | *React, SQL, Docker, WebSockets* — Oct 2025

- Built a full-stack tourist safety platform with live distress signaling and geofenced alerts.
- Implemented a WebSocket layer supporting **50+ concurrent connections** with **sub-3-second** notification delivery.
- Optimized spatial search queries across **10,000+ danger zones** for fast alert lookup.
- Containerized services with Docker and deployed on Railway to support concurrent user sessions.

VERITAS AGENT — Multi-Agent AI Fact Verification Platform | *Python, SQL, Docker* — 2026

- Developed an autonomous fact-verification system that uses multi-agent AI consensus to cross-reference claims.
- Created API endpoints and optimized prompt execution to reduce response latency.
- Containerized the application with Docker and configured automated deployment pipelines.

Certifications & Achievements

- **Quantum Quest 24 HR Hackathon** — Dept. of AI & ML, CBIT Kolar — Oct 16–17, 2025
- **Exploring AWS through Hands-on Practice** — Student Development Program, Dept. of CSE, CBIT Kolar, with IQAC, IIC & intelliCert Technologies — Feb 10–13, 2026
- **Python Programming** — 40-hour online course by Microsoft via Skill India Digital Hub (NSDC) — Sep 25, 2026
- **Python and SQL for Data Science** — Certificate of Excellence, Scaler Topics — Nov 14, 2025
