Career Objective

Motivated and detail-oriented Computer Science Engineering student seeking opportunities to apply programming, web development, and problem-solving skills. Passionate about developing innovative software solutions and continuously learning emerging technologies in software engineering and artificial intelligence.

Education

Bachelor of Engineering in Computer Science & Engineering (VTU)

C. Byregowda Institute of Technology, Kolar

2023 – Present

Pre-University College (PCMB)

SSR PU College, Mudalagi

2021 – 2023 | 63%

SSLC

Government High School, Gurlapur

2021 | 95.6%

Technical Skills

Languages: Python, JavaScript, SQL

Frontend: HTML5, CSS3, JavaScript

Database: MySQL

Tools: Git, GitHub, VS Code

Concepts: Web Development, Artificial Intelligence Basics

Technical Projects

1. Veritas-Agent (AI-Based Fact Verification System)

Developed a multi-agent framework for automated fact verification. Implemented intelligent agents to analyze information from multiple sources and designed a transparent verification workflow.

Technologies: Python, AI, LangChain, CrewAI, Gemini API.

2. Bank Record Storage System Using Blockchain

Developed a secure banking record management system using blockchain concepts. Implemented customer management, transaction tracking, and blockchain-based record storage.

Technologies: Python, Flask, MySQL, Blockchain.

Certifications

- Python and SQL for Data Science – Scaler Topics
- Exploring AWS Through Hands-on Practice – CBIT Kolar
- Quantum Quest 24-Hour Hackathon Participation Certificate

Activities & Achievements

- Participated in Quantum Quest 24-Hour Hackathon
- Completed AWS Hands-on Practice Student Development Program
- Built AI and Web Development projects as part of academic learning
- Active learner in Python, Web Technologies, and Software Development
